As a motivated BSITWMA student, I am passionate about creating user-friendly and dynamic web designs using frameworks like Bootstrap and Tailwind CSS. I have gained proficiency in using HTML, CSS, and SQL, and I am also expanding my knowledge on cybersecurity to help build secure web applications. Known for my collaborative approach, I enjoy working with teams to bring ideas to life. My studies and projects have prepared me with a strong start in web development, and I am looking forward to contributing to a professional team.
